

Corrections to MUC Gig Book 1.

I have changed the enclosed charts for the following reasons:

Anytime

Incorrect chords over the 3rd line "Anytime you feel downhearted" **F Fm** are correct.

Five Foot Two

Changed "girl" To "gal" throughout. Changed "covered **in** fur" to "covered **with** fur".

Hukilau

Removed extra "hukis". Corrected misspellings. Attempted to create a better roadmap. (We repeat the entire song and then just sing down the page through the new ending.) After consulting with Steve, changed the ending that I am most familiar with to one that will work much better for the group (single Hawaiian vamp with three ending chords.)

Sunny Side of the Street

I just added the counts to the chords at the bottom for clarity.

Who's Sorry Now?

There was an A7 marked as a C7 on the line "Right to the end, just like a friend" in between "end" and "just". I fixed it.
